

Voice-Tracking Camera Solution

CamConnect Pro

Wouldn't your video conferences be better if the camera focused on the presenter?

With Lumens CamConnect™ Pro and Sennheiser TeamConnect Ceiling 2, your in-room cameras automatically capture the active speaker. CamConnect™ Pro transforms the remote experience delivering instant meeting equity, greater engagement, and more meaningful interaction.

CamConnect Processor

- Supports up-to 4 IP cameras
- Supports up-to 16 multiple array microphones
- Supports PBP and 2x2 multiview output
- AI algorithm for people tracking and center stage
