VC-TR60A Firmware Release Note

Release Date	Version	Description	Note
2025/02/25	VRK203	**Improvement** 1. Improved autofocus performance. **Bug Fixes** 1. Fixed an issue where HDMI output sometimes behaved abnormally at 4K resolution on some monitors. 2. Big fix that wrong stream from VC-TR60A to be displayed when using ONVIF search with the VS-KB21	
2024/12/20	VRK201	**New feature** 1. Block areas can now be drawn in the field via the webpage to prevent sound detection in specific zones. 2. PIP mode is now supported via UVC output in 1080P and 720P resolutions. 3. Added a schedule reboot function in the webpage interface. 4. Added Multi voice tracking, allowing the camera to frame all speaking individuals in the scene. **Improvement** 1. Implemented an internal backup mechanism to ensure setting data is not lost.	
2024/06/28	VRK100	First version.
